

TEAM BUILDING EXPERIENCE

If you're looking to get the most from your team, it's important that they get the most from each other. Build connections and trust with a team building experience at Grand Geneva.

Grand Geneva employs a team building staff dedicated to corporate activities—great sparks for fostering cooperation, enthusiasm and interaction through programs customized for your staff. Whether it's new employees and leadership or if your group just needs a kick-start to regain focus, we know how to get you on track.

PROGRAM DEVELOPMENT

We will design a program specific to your group's needs and availability. Whether you're looking to spend an hour or a few days with us, we'll use the responses from your team building assessment to tailor an experience based on your team's goals, needs and physical abilities.

PROPOSAL

Once you complete your assessment, our staff will present you with an overview of a suggested customized program along with sample activities designed to accomplish your goals. Because the program is completely at your discretion, you will have the opportunity to adjust the program as you see fit.

DELIVERY

When your group arrives at Grand Geneva, they will participate in a detailed program which will emphasize fun in an informal setting. Though participants will enjoy the program, they will also get something out of it; activities can range in focus to bolster communication, conflict resolution, brainstorming, bonding, or several of these aspects at the same time!

RESULTS

Each program is lead by a facilitator to keep the group on track. At the end of the process, the facilitator will lead a discussion with the purpose of bringing the lessons learned through the exercises back to the office, which is where the real payoff will be seen.
